EXPERIENCE

2007 – Present

Environmental Health Technician

Department of the Air Force, Maxwell Air Force Base, Alabama

Manage the occupational health program for Air University, the 42nd Air Base Wing, the 908th Airlift Wing and many other associated organizations consisting of over 15,000 military and government civilian personnel. Create technical reports and communicate problems to upper-level commanders. Manage the Home Station Medical Response Chemical, Biological, Radiological, and Nuclear Bioenvironmental Engineering Surveillance Team; ensure response personnel are trained in accordance with federal and local regulations, evaluate responders during exercises, and ensure equipment is ready for use at all times.

1998 – 2007

Bioenvironmental Engineering Apprentice, Journey, and Craftsman

United States Air Force, Eglin Air Force Base, Florida

2001 – 2004

Emergency Medical Technician – Basic

Walton County Emergency Medical Service, DeFuniak Springs, Florida

Performed basic life support to people in need, to include but not limited to: respiratory distress, chest pain, falls, motor vehicle accidents, and general medical care. Responded to emergency and non-emergency incidences; transported patients to medical facilities or to medical helicopters.

2000 – 2003

Volunteer Firefighter

DeFuniak Springs Fire Department, DeFuniak Springs, Florida

Under the direction of the fire chief or superior firefighters, responded to all types of emergency calls. Provided basic medical care and secured scenes during motor vehicle accidents, performed fire suppression activities during structure and brush fires.
